- github.com/git707510

CORE COMPETENCIES

- Backend Development
- REST API Design
- Performance Optimization
- System Integration
- Requirement Analysis
- Technical Documentation
- Client Communication
- Team Mentoring
- Problem Solving

SKILLS

- C# / ASP.NET Core / MVC
- Web API / Minimal APIs
- Entity Framework Core
- SQL Server / LINQ
- Angular / AngularJS
- JWT / Role-Based Auth
- Clean Architecture
- Repository Pattern
- SOLID Principles
- Docker / Kubernetes
- GitHub Actions / CI/CD
- Stripe / Razorpay
- Amadeus / Sabre / Travelport
- Umbraco CMS
- SignalR
- RAG / Semantic Search
- Gemini API
- Postman / Git / IIS
- .NET Framework 4.5 / 4.6 / 4.8
- .NET 6
- .NET 8
- .NET 10
- SQL Server 2019
- SQL Server 2022
- IMemoryCache
- ILogger
- Swagger/OpenAPI
- xUnit
- Windows Server Deployment
- IIS Deployment
- SSL Configuration
- Application Pool Configuration
- Docker
- Kubernetes
- GitHub Actions
- SignalR

EDUCATION

B.Tech – Mechanical Engineering
Bachelor of Technology
2014 – 2018

PROFILE

Senior .NET Developer with 4 years and 7 months of experience designing, developing, and maintaining scalable, secure, and high-performance web applications using ASP.NET Core, C#, Web API, Entity Framework Core, SQL Server, Angular, and Umbraco CMS. Experienced in building RESTful APIs, implementing authentication and authorization mechanisms, integrating third-party APIs, and delivering enterprise-grade solutions across Government ERP, Healthcare, HRMS, E-Commerce, and Travel domains. Proficient in Clean Architecture, SOLID principles, Repository Pattern, and modern development practices. Hands-on experience with payment gateway integrations, flight booking APIs, Docker, Kubernetes, CI/CD pipelines, and AI-powered applications utilizing RAG, semantic search, embeddings, and Gemini API.

WORK EXPERIENCE

Programmer | Dotsquares

Oct 2024 – Present

- Designed and maintained scalable Enterprise Management Systems (EMS) using ASP.NET Core and SQL Server.
- Developed and maintained RESTful APIs with Entity Framework Core and Clean Architecture principles.
- Integrated Amadeus, Sabre, and Travelport APIs for flight search and booking functionality.
- Implemented secure payment gateway solutions using Stripe and Razorpay.
- Customized and extended Umbraco CMS and Umbraco Commerce based solutions.
- Implemented JWT authentication, refresh tokens, and role-based authorization.
- Participated in Docker-based containerization and Kubernetes deployments.
- Improved API response time by approximately 80% through query optimization and caching.
- Mentored two junior developers and contributed to technical documentation.

Senior Software Engineer | Wipenex IT Pvt Ltd

Feb 2024 – Sep 2024

- Maintained and enhanced enterprise applications to ensure reliability and performance.
- Participated in ERP planning and implementation activities.
- Assisted junior developers and promoted coding best practices.
- Contributed to requirement analysis, effort estimation, and release planning.
- Improved maintainability by adopting SOLID principles and clean coding practices.

Assistant Software Engineer | Wipenex IT Pvt Ltd

Dec 2021 – Feb 2024

- Developed ERP modules using ASP.NET, AngularJS, and SQL Server.
- Built dynamic user interfaces and implemented business logic for various modules.
- Delivered Hospital ERP and Government ERP solutions to multiple clients.
- Implemented secure payment gateway integrations.
- Developed reporting modules with PDF and Excel export capabilities.

LANGUAGES

- Hindi (Native)
- English (Fluent)

PROJECTS

Government ERP

ASP.NET · AngularJS · SQL Server

- Developed Auction Management, Rent Collection, Banquet Hall Booking, Payment Gateway, and Reporting modules.
- Implemented secure online transactions and reporting with PDF and Excel export support.

Hospital ERP

ASP.NET MVC · SQL Server

- Delivered OPD, IPD, Pharmacy, and Billing modules to multiple healthcare clients.

Enterprise Management System (HRMS)

ASP.NET Core · SQL Server

- Developed Leave Management and Work From Home workflow modules.
- Implemented automated permission updates and workflow improvements.

E-Commerce Platform

Umbraco CMS · Umbraco Commerce · Stripe

- Customized e-commerce workflows and integrated secure payment processing.

Flight API Integration Platform

ASP.NET Core · Web API

- Integrated Amadeus, Sabre, and Travelport APIs.
- Developed a unified architecture for flight search and booking operations.

AI Knowledge Base Application

RAG · Semantic Search · Embeddings · Gemini API

- Developed a document-driven knowledge base application using Retrieval-Augmented Generation (RAG).
- Enabled users to upload custom documents and retrieve contextual answers based on document knowledge.
- Implemented semantic search and embeddings using Gemini API.

ACHIEVEMENTS

- Improved API response time by up to 80%.
- Developed and maintained 50+ REST APIs.
- Managed and optimized 100+ SQL Server tables.
- Delivered solutions for 5+ clients.
- Successfully delivered 5+ enterprise projects.
- Developed 20+ modules.
- Mentored 2 junior developers.
- Worked in teams of up to 4 members.
